COURSES

Frontend development By Meta

Backend development By Meta

SKILLS

PROGRAMMING

languages:

• JavaScript • TypeScript • Java (Advanced) • C++ • Python

Database and Tools:

• Git • NodeJs • Android • Firebase
• MongoDB • SQL • Express.js • AWS

Framework and Library:

• Next.js • React • React Native • Redux
• MongoDB Vector • Langchain

Technologies:

• HTML • CSS • AI • NLP

Creative Tools:

• Figma • Blender 3D

OS:

• Windows • Linux • MacOS

OTHER

- Leadership
- Communication
- System Design
- Solving Abilities
- SEO optimization
- Project Management
- Helps 3 early-stage startups to Launch their product

ACHIEVEMENTS

HACKATHON'S

- 2023 1st Rank in Zion 23' Hackathon
- 2022 Participated in Navdhara 2k22 Hackathon

EXPERIENCE

LifeIDEASIGN | FOUNDING SOFTWARE DEVELOPER

Nov 2023 – Present | Pune

- Developed the LifeiDesign's Lifestyle Gamification platform using Next.js and Node.js. This included building a drag-and-drop interface for task prioritization and a real-time collaboration feature. The platform has successfully scaled to support over 1,500+ users till date.
- Troubleshooted critical bugs, enhancing app stability and user experience.
- Agile-Experience: Daily stand-ups and sprint planning honed communication and collaboration skills.

PRATICHAKRA | FULL-STACK SOFTWARE DEVELOPER INTERN

Dec 2022 – Jun 2023 | Noida (remote)

- As a Full-Stack Software Developer Intern at Pratichakra, Spearheaded the development of their core event management platform using React Native and React.js, resulting in a user base exceeding 800+ within a month.
- During the latter part of my internship, broadened my experience by contributing to client projects, including one for LT.
- Implemented T3 stack for the optimization over data flow across system.

PROJECTS

WEB-BASED IDE FOR PROGRAMMING | NODE.JS | AWS - ECS |

AWS - EC2 | DOCKER | CLOUD | NEXT.JS | EXPRESS.JS | STREAM

Sept 2024 – Oct 2024

- Engineered a scalable cloud-based Integrated Development Environment (IDE) using Node.js and Docker, enabling a 30% reduction in development time by integrating live console logging and seamless version control features.
- Enhanced system security protocols delivering consistent platform stability and user trust. And system which can serve upto 2000+ environment at same time.

DNS SERVER FROM SCRATCH | NODE.JS | AWS | NEXT.JS

Aug 2024 – Aug 2024

- Engineered DNS server using TypeScript, Node.js, AWS, and Next.js Configured robust caching mechanisms within DNS infrastructure that improved response times and reduced server load and can handles 50000+ dns records,
- Leveraged AWS services for deployment such as EC2 configured for scalability.
- Demonstrated strong understanding of network protocols, DNS architecture, and cloud-based development

CHAT WITH PDF | NEXT.JS | LANGCHAIN | PINECONE | TRPC | PRISMA

Jan 2024 – Feb 2024

- Built a high-performance, real-time PDF/document chat platform utilizing Next.js, tRPC, Prisma, Pinecone, and LangChain. an scalable SaaS platform
- Deployed modern database solutions through Prisma (ORM) with Pinecone's vector storage, establishing a resilient microservices architecture that improved data retrieval speed by 25%, delivering seamless user experiences.

PHOTO'S SHARING WEB APP | MERN STACK | TAILWINDCCS | REDUX

Oct 2022 – Nov 2022

- Created a image-sharing platform featuring various categories, user uploads, and social media functionalities. with the read/write capacity of 50000+ assets.
- Tech. Used - React, JavaScript, MERN, Redux, Sanity CMS, TailwindCSS, ReactDOM.
